

## ABOUT US

SolarPro is a solar company passionate about providing our clients with innovative and sustainable energy solutions. We have been in the renewable energy industry for over five years and have established ourselves as a leading solar PV Installation company nationwide.

We take great pride in our experience in residential, commercial and farm PV installations, and our clients trust us to deliver quality and efficient systems. We take pride in our 5-star Google reviews, which attest to our commitment to quality, speed of delivery and efficiency.

## OUR MISSION

Our mission is to help clients reduce their carbon footprint and achieve energy independence by providing expert advice and high-quality, reliable solar PV installations. We firmly believe that solar energy is the future, and we feel strongly and are committed to making it accessible to everyone.

### Customer Google review

"The system itself is performing above expectations and it's clear we made the right decision with the investment - constant monitoring of generation, usage and our own habits are now a large part of the day as we look to optimise everything!" - Eoin White, Dublin

System Maintenance

## OUR TEAM

SolarPro is a team of highly skilled and experienced solar PV engineers, electrical engineers, and project managers. Our team follows strict safety protocols and adheres to industry standards and regulations to ensure that every installation is done safely and of the highest quality.

## High Quality Equipment

We use only the highest quality and most efficient solar PV panels, inverters and mounting systems from leading manufacturers in the industry. We are dedicated to delivering customized solar PV solutions that meet our client's specific needs and requirements.

**Huawei SUN2000 Inverter**

**Huawei Luna Energy Storage**

**Zappi EV Charger**

**Eddi Power Diverter**

These are premium products however we offer a range of Solar PV systems to fit every budget, ensuring everyone can benefit from clean and sustainable energy.

## Future of Solar Pro

Our five-year plan is to be the leading provider of sustainable energy solutions in the market. We will have also expanded our services into other EU countries. Additionally, we will be investing in research and development to be ready to embrace new renewable energy technologies, test our innovative designs and offer more products, such as energy storage alternatives, to offer more advanced and comprehensive solutions to our current and new clients. Overall, we want SolarPro Energy Solutions to be recognised as a significant player in the fight against climate change by helping clients reduce their carbon footprint and achieve energy independence.
